## CREW SHOE

CASUAL FOOTWEAR

SIZE: 5-14 US

---

**Alpinestars Crew Shoe provides both pit crews and fans alike with a stylish, high performance shoe for those long days at the track. The air mesh construction provides excellent ventilation, while the padded collar, shock absorbing heel and soft EVA foam midsole accommodate the foot in luxury.**

---

### CREW SHOE KEY FEATURES:

- Lightweight, well ventilated shoe designed for automotive racing pit crews and offering exceptional comfort and support.
- Open air-mesh upper with excellent air flow properties.
- Welded cage provides a supportive structure for the whole foot.
- Comfortable padded collar offers extra ankle support.
- Outsole designed to provide maximum cushioning and support while minimizing weight.
- Further cushioning granted via the soft EVA foam midsole.
- Hard EVA shank improves mid-foot support.
- Strategically placed rubber panels on the outsole maximize grip.
- Forefoot flex-grooves enhance shoe articulation.
- Segmented construction on the rear of the shoe helps maintain impact absorption.
- Air bladder component in the heel provides extra shock protection.
