## GP PRO SUIT

AUTO RACING APPAREL

SIZE: 44-60 EUR

**Lightweight, ergonomically designed 3-layer performance racing suit for professional drivers. This suit features advanced safety materials for maximum heat transfer protection and is constructed to ensure a comfortable fit in all conditions.**

Complies with the **FIA 8856-2000** homologation standard.

### Racing construction

- Advanced 3-layer technology offers lighter weight and improved performance.
- 100% Nomex® outer layer.
- Full Carbon-X® mid layer for maximum heat transfer protection.
- Knitted Nomex® internal layer provides superior comfort.
- Shoulder construction uses additional Carbon-X® padded panels for extra cushioning under HANS device and belts.

### Premium design

- Arm, leg and torso paneling patterned for optimum driving position fit.
- Soft Preox® knit lower back and lateral stretch panels for unrestricted movement and breathability.
- Alpinestars fully floating arm construction with stretchable knit fabric provides freedom of movement.
- Internal flat seams reduce pressure points in the suit for a more comfortable driving experience.
- Close fitting design and adjustable collar and belted waist for precise fit.

### High performance details

- Shoulder epaulettes.
- Ribbed wrist and foot cuffs.
